Community health centers are nonprofit, patient-governed organizations that provide high-quality, comprehensive primary health care to America’s medically underserved communities, serving all patients regardless of income or insurance status.

In 2021, for the first time in a single year, health centers served over 30 million patients.

Over 1,400 Community Health Centers and Look-alike organizations provided care at more than 14,000 locations across the country in 2021.

1 in 11 Americans are health center patients, of whom:
- 20% are uninsured
- 59% are publicly insured
- 90% are low-income
- 65% are members of racial and/or ethnic minority groups
- 42% live in rural communities

Health centers are the health care home for many of America's historically underserved communities, including:

- 1 in 5 uninsured Americans
- 1 in 3 Americans living in poverty
- 1 in 5 rural Americans
- 1.3 million people experiencing homelessness
- 8.6 million children
- Nearly 400,000 veterans
- 3.3 million elderly patients
Health centers expand access to high-quality, comprehensive services, including:

- **Telehealth Services**: 29 million virtual visits
- **Dental Services**: 5.7 million patients
- **Mental Health Services**: 2.7 million patients
- **Substance Use Treatment**: 285,000 patients
- **Medication-Assisted Treatment for Opioid Use Disorder**: 184,000 patients

Health centers are playing a pivotal role in fighting the COVID-19 pandemic by ensuring equal access to prevention and treatment.

To date, health centers have administered...

- **22.2 million vaccines**: 72% of which have gone to patients of racial/ethnic minority backgrounds
- **20 million tests**: 61% of which have gone to patients of racial/ethnic minority backgrounds
- **7.2 million N95 masks**:
- **7.9 million at-home test kits**

And distributed:

- **5.7 million patients**
- **2.7 million patients**
- **285,000 patients**
- **184,000 patients**

HEALTH CENTERS DRIVE ECONOMIC GROWTH

- **270,000 employees (FTE)**
- **$63 billion economic activity generated in communities served**
- **$24 billion savings to the health system annually**
